1 Public summary

This document has been created to describe the Paris Demonstration of the SECUR-ED project, as it took place on December 9th 2013.

Per the Grant Agreement Description of Works, the objective of this document is to report on the implementation and set-up of the demonstration. Consistent with the previous deliverable documents of WP43 “Paris demonstration”, this report will be structured around the demonstrated scenarios that had been designed in a previous analysis phase (see previous WP43 deliverables to get a general point of view).

Compliances with the European Union and National Directives are also presented.

The document also details the preparation of the demonstration before explaining the D-day demonstration (agenda, live scenarios, pictures, preliminary comments).

Solutions implemented to answer to the defined scenarios are summarized at the end.

The feedbacks on the results obtained and the comparison with those expected is assigned to the deliverable D43.5 "Consolidated results for Paris demonstration" that will follow.
