1 Abstract & Purpose

1.1 Public summary

This deliverable describes the consolidated results related to all Milan demonstrations. The aim is to describe which results have been obtained after playing Milan scenarios.

Each demo is introduced through a synthesis of the relative scenario, the partners and the capacities involved, as defined in previous WP44 deliverables. All the activities and the results concerning Milan demonstrations are deepened and analysed, in particular are provided:

- Report on preliminary activities: describing all issues and results regarding the preparation of the demo, i.e. installations, SITs, dry runs, organization of demo event;
- Report on the play: describing all issues and results derived from executing the events, also providing an “incident report”.

The deliverable includes also a chapter related to the cost evaluation of Milan Scenarios and the solutions are analysed under the following criteria:

- Functional
- Operational
- Interoperability
- Industrial
- Ethical

Finally are summarized faced criticalities and lesson learnt, with contribution collected from all Partners involved in Milan experimentation.

- End of Document -
